Reason- A Technical Journal

(Previously *Reason- A Technical Magazine*)

(ISSN 2277-1654)

Reason- A Technical Journal (previously *Reason- A Technical Magazine*) is a yearly publication brought out by Kalyani Government Engineering College which was established in 1995 by the Government of West Bengal. It was first published in 1999. In the year of 2011, it has obtained the **International Standard Serial Number (ISSN) of 2277-1654**, and from Volume X, 2011, it is considered as a Journal publication. Since Volume XI, 2012, substantial number of articles from different institutions and organizations are included in this Journal after the double blind peer review process. From Volume XII 2013 issue, the journal is renamed with the approval of the ISSN authority and the new name becomes *Reason- A Technical Journal* with the same ISSN of 2277-1654.

The scope of this Journal publication includes any field of applied science, technology and management that would be of interest to the academic fraternity, practicing engineers, management personnel, and active researchers.

Original research articles, review articles, technical notes and technical comments are invited to submit related to the scope of this publication. Contributed articles will be peer reviewed before consideration for publication in *Reason- A Technical Journal*.

GUIDELINE TO THE AUTHOR FOR SUBMISSION OF PAPERS

1. Introduction

Reason- A Technical Journal (previously *Reason- A Technical Magazine*) is a peer reviewed yearly Journal brought out by Kalyani Government Engineering College, Kalyani. Original research papers/ review papers/ technical notes/ technical comments are invited related to any field of applied science, technology and management for consideration for publication in it.

2. General Requirements

Full length article may be typically of about 3000 words (or, six A4 pages).

- The paper should be written in single line-spaced, fully justified format in 12 point Arial font. One line space is to keep between paragraphs, and no indent is to provide at the first line of a new paragraph.
- First level heading is required to be consequently numbered like **1., 2., etc.**, left justified and bold.
- Second level heading should be numbered consequently like **1.1., 1.2., 2.1., 2.2., etc.**, left justified and bold.

Centre the title at the top of the page in all caps and bold font, with one line space after it. The name of the author is to appear next in a separate line; place affiliation(s) with address of organization and email ID in the next line(s) with identification marks in superscript. The abstract should be of 150-250 words. A list of 3-5 keywords is to place next.

All figures and tables are to be numbered sequentially and should be referred inside the text. Figure captions with figure number should be placed below it, and Table captions should be placed above the table. Tables and figures should be distinct and readable even after some amount of reduction. A list of caption of figures and tables should also be included at the end of the full length paper. Tables and figures should also be given as separate files in addition to the full length manuscript containing all figures and tables. Equations, if used, need be made using bold and at least 14 point font size. References should be cited in the text by numbers in square brackets, such as [1], [2], etc. List of references will be as per the example given below corresponding to a book [1], journal paper [2], conference proceedings [3] and website [4];
